Front-end Developer

Summary

I am Emmanuel. I possess expertise in planning, design and implementation of high-quality websites. I am passionate about tech and since joining this space, I have very much enjoyed being involved in the creation of several products and services. I have a proven ability to quickly understand the task required of me and provide innovative solutions and complete project within the specified deadline. I also possess excellent communication, time management and computer skill as well as perform excellently with a team. I am a driven and detail oriented person that applies analytical and problem solving skill to meet required goals. I am a very fun and lighthearted person that can bring a positive and uplifting atmosphere to the team environment. When I'm not working, I would be learning new things to improve myself and sometimes maybe just playing video games or chess.

Work Experience
